Asbestos Safety Kit

T-ISS

Product description

The Asbestos safety kit, is a product to safely remove asbestos debris during the operation of a vessel. This product is used by a vessels crew to remove any harmful asbestos materials in a safe way, while the ship is operating at sea.

The kit is not meant to be used for large scale asbestos removal, for example during the docking of the vessel. All items in the kit are produced according to the EU quality standards for asbestos removal.

All parts are approved by certified companies.
